

If you are ready for a ZANY adventure, then you chose the right boat!!! It is the perfect boat to break free from routine life styles and breathe in the intoxicating joyful feeling of life-giving freedom and adventure! Its absolute luxury compliments the sailing performance. A fellow captain/catamaran sailing instructor said it best, when he described it during a Northeaster on Lake Erie “this CAT handles better than anything this size that I have ever sailed before!”

We have been incredibly blessed to embark on this ZANY journey for the last two years. This was to be our “training wheel phase” before our “around the world in ten years story”. Zany has been on the Great Lakes in freshwater since its purchase two years ago, and winterized during the off-season.

Zany expanded into so much more than a sailing experience. It was about making memories with old friends meeting strangers that became new friends, friends who will constantly influence our lives in countless ways, as we purchase our next catamaran in the Philippines.
